THE death of Hon. William A. Wheeler last week leaves but one living ex-vice president, Hor. Hannibal Hamlin, of Maine.

normal school. Is it not about time the weekly news. we were having a report from the committee?

THE prospect for corn is excellent all over the state, and if no untoward factor intervenes, the crop of that cereal for Kansas will reach the enormous figure of 500,000,000 Bushels.

IN THE absence of liquor joints, under the new regime, the soda fountains are kept busy and the people are healthful, happy and prospeous. A language. drunken man is as scarce as the blossoms of the century plant.

ONE of the best indications of the agricultural probabilities of this season, and the prospects for our staple cereal, corn, is the immense number of implements that are sold daily to our farmers by dealers in these articles.

CANADA has at last begun to retaliate. Last week a Canadian bank eashier skipped to Boston with \$12,000 which was not his. The only difference between him and the average larger sum than a pitiful \$12,000.

GREAT Bend can have a Fourth-ofJuly celebration which will equal anything in this part of the state. It is
true it seems a little late now, but still,
with energy, every needed preparation
can be made. We announced yesterday that there would be a celebration
and we have no doubt those in charge
will make it a success. Still, if we
were allowed to make any suggestion,
it would be that a committee be appointed at once to procure noted speakers from a distance as well as good
home talent. The speakers should be
secured as early as possible in order
that the fact may be advertised.

GREAT BEED has had a most pros-

GREAT BEED has had a most prosperous season since the opening of spring, in fact the most prosperous in her history. The citizens themselves are the authors of it all. They set to work early in the season and said that we must have a boom this year. The result was we have had a boom. We refer to this for the purpose of impressing it on the minds of our people that. after all, whether Great Bend will make a large city depends wholly ite home remedy, is entirely vegetable make a large city depends wholly and solely on us. We may talk as much as we please about our excellent geographical situation, and it is greatly in our tayor, but after all men make time. It is the best prevensive mediin our tayor, but after all men make cities. Casting one's eye over the map the sickness may prove to be, and, in he would naturally say that Leaven-worth ought to have a greater city than Kansas City. And it would, had the Z-stamp on wrapper. Leavenworth had the same kind of \$8.25 will buy a man's suit, one Leavenworth had the same kind of business men as Kansas City. "The Gods help those who help themselves" is one of the oldest and truest of maximum for a suit, one pair nice calf button shoes, one pair hose, one necktie, one handeerchief, one pair suspenders—all 457%; hght, \$4.0024.25.

THAT stomach-distorting and bodyhumping esculent—the festive cucumber-has made its appearance, the natural precursor of the greenapple period, when the small boy writhes and squirms under the paralyzing effects of surreptitious visits to ferbidden orchards.

THE readers of the DEMOCRAT will sadly miss the newsy letters which we have been receiving from our correspondent at Bartholdi. I. N. LUND, Manager.

Farmere, try this Harrow and you will use no other. Does perfect work either on sod or old thing for working listed corn.

It is cheap and durable. CHAS: E: SOWLE Agent or Barton and Stafford Counties.
